How do LinkedIn posts work?

Each sponsorship package includes LinkedIn posts. Posts will be made using the official EPCA LinkedIn account and include the sponsors text and one small visual element.

Post content can include statements linked to the AM topics, a daily AM theme, a sponsored session announcement, a sponsored booth or lounge announcement, an invitation by a sponsor to the EPCA community to join the AM, or quotes from the previous AM.

Each LinkedIn post needs to be prepared by the sponsor in StoryChief (EPCA's social media tool).

You will be invited as a guest writer and can insert all details for the LinkedIn Post in line with EPCA's Dos and Don'ts <https://epca.eu/dos-donts> that you would like to propose for the #EPCA57. This will then be reviewed by EPCA's compliance team (external lawyer) and once approved, it will be published. You can share your publication week preference in the comments section.

StoryChief is very intuitive, if you have any questions the chat function on the bottom right and/or StoryChief's HelpCenter <https://help.storychief.io/en/collections/340913-user-workspace-management> / <https://help.storychief.io/en/articles/4858952-guest-writers> will guide you.
